Update – recap of Q3FY22

- During the quarter, Consolidated Revenue grew 6% (ex International Foodservice business exits last year)– bringing 2-year CAGR to 13.4%.
- Overall, India business¹ grew 6% led by
 - India Beverages² business growth of 1%, with 6% volume growth
 - India Foods³ business growth of 16%, with 4% volume growth
- International business grew 2% ⁴ (-1% in constant currency terms), cycling an elevated base.
- In India Beverages, we have seen improved momentum month-on-month with 5% volume growth in tea during the quarter, bringing 2-year volume CAGR to 8%. We have also seen strong volume growth across the Sampann and Nourishco businesses.
- With tea inflation tapering off, we have seen a strong improvement in India Beverages EBIT margins, up 1110bps YoY. Inflation & investment in new businesses have impacted India Foods margin. We will dynamically manage all lines of the P&L to mitigate this going forward.
- Despite these inflationary pressures, EBITDA margin for the quarter was 14.6%, up 270 bps YoY, and up 70bps QoQ .
- We continued to invest behind our brands, with A&P in India business up 19%.
- In line with our strategic priority of exploring new opportunities, TCPL acquired Tata SmartFoodz Ltd. (TSFL), owner of the brand Tata Q. This will enable us to expand our portfolio into higher margin, value added categories and to cater to the growing consumer need for healthy, tasty and convenient food offerings.
- In order to further simplify our International business, we transitioned to a distributor led operating model in Australia.

Another strategic addition to our portfolio – Tata Q

- In line with our strategic priority of exploring new opportunities for growth, TCPL acquired Tata SmartFoodz Ltd. (TSFL), the owner of the brand “Tata Q” in November’21.
- TCPL has gained access to state-of-the-art MATS technology and TSFL’s in-house manufacturing and R&D capabilities.
- Will enable TCPL to capitalise on emerging consumer trends and growing demand for wholesome, convenient and trusted food items.
- TCPL would refresh and enhance the existing product portfolio. The technology can also be leveraged to create a strong pipeline of value-added products in other parts of TCPL’s food business.
- The category is expected to grow at a significant pace in India and presents a sizeable opportunity in overseas markets.
- Will capitalize on TCPL’s strength in Modern Trade and Ecommerce in India and its global presence to service a sizeable and fast-growing exports market (USA, Canada, UK and Australia account for majority of exports of RTE products - strong overlap with TCPL’s international footprint).
- Significant scope to also unlock synergies across procurement, manufacturing and logistics, among other functions.
