Other

We are Tata Consumer Products

Largest salt brand in India

2nd Largest tea brand in India

4th largest tea brand in UK & largest tea brand in Canada

4th largest R&G coffee brand in USA

National brand in pulses, spices and mixes

#1 natural mineral water brand in India

In a nutshell

Integrated F&B company with rich heritage of Tata, aspiring for a larger share of the FMCG World

#2 branded tea player globally

₹ 13.8K crore consolidated revenue in FY23 with current market cap of ~₹66k* Cr

Reach north of 200mn households in India and distribute to ~3.8mm retail outlets

Among the top 10 FMCG companies in India

~3500+ employees worldwide

01

Executive Summary

Executive Summary

- We had a strong fourth quarter with consolidated revenue growth of 14% and a consolidated EBITDA margin of 14.3%. During the quarter,
 - India Beverages¹ business grew 8%, with tea volumes returning to growth, up 3% YoY.
 - India Foods² business continued its strong trajectory, with volumes up 8%. The Salt business margin was almost back to the normative range.
 - International business recorded 11% revenue growth (1% ex acquisitions in constant currency)³, with EBITDA in line with last year.
- During the year, consolidated revenue grew 11%, with India business⁴ growth of 10%;
 - India Beverages¹ business grew 1%, with -1% volume growth
 - India Foods² business grew 26%, with 2% volume growth
 - International business was +8%³ during the year (+4% ex acquisitions in constant currency)³, primarily led by price increases.
- We continued to drive “India Growth”⁴ businesses – combined, they grew 53% and accounted for 15% of India business during FY23.
- During the year, we gained market share in salt, but the tea volume share saw a marginal dip due to demand challenges in some of our key markets.
- On profitability, India business EBITDA margin expanded by 90bps during the year, despite inflation in the salt costs which we offset through pricing, albeit with a lag. Importantly, the profitability profile of growth businesses improved YoY.
- At the company level, the EBITDA margin contracted by 50bps in FY23, led by steep inflation in the International business. However, we have seen a sequential improvement in International business margins and expect it to normalize by Q1FY24.
- We continued to accelerate innovation with Innovation-to-Sales at 3.4% in FY23; and are on track to achieving 4mn outlets in total reach by Sep’23.
- We continued our focus on driving efficiencies with a strong Free Cash Flow conversion.
- Dividend proposed at Rs 8.45/share, up 40% YoY.

¹ Includes NourishCo revenue, but volume doesn’t include Nourishco volumes

² Includes Tata Soufull, Sampann Yumside revenues. Volume doesn’t include Soufull/Sampann Yumside volumes

³ Excluding the impact of Joekels and Bangladesh stake consolidation that happened in Q4FY23

⁴ Includes India beverages & India Foods business, including NourishCo.

⁵ Includes Nourishco, Tata Sampann, Tata Soufull, and Tata Sampann Yumside businesses.

Progress against Strategic Priorities

Strategic Priorities

Progress on S&D – delivering on commitments

■ Direct reach (m outlets) ■ Total reach (m outlets)

Sep'20: Target to double direct reach in 12 months and total reach in 36 months

Sep'21: Direct reach of 1.1m outlets - target to move to 1.3m outlets by Mar'22

Mar'22: Direct reach of 1.3m outlets

Mar'23: Direct reach of 1.5m outlets. Well on our way to achieving 4m total reach by Sep'23

S&D Agenda for FY24

- ✓ Increase total reach to 4m outlets
- ✓ Increase bandwidth at the front end through split routes for salesmen in Ten Lac Plus Population (TLP) towns.
- ✓ Add distributors/upgrade sub-Ds down the pop strata

Alternate channels continue to fuel growth and innovation

Pilot programme

Tata Starbucks is looking to rapidly expand its presence in the coming years. To achieve this, we are looking to enhance its relevance for more segments of consumers

We ran a pilot in 2022 across four cities in India to:

- ✓ Drive familiarity among consumer segments
- ✓ Create more occasions for consumers to visit Starbucks
- ✓ Grow the consideration set for different types of consumers

The pilot stores demonstrated improved operating metrics. As such, these workstreams will be rolled out nationally in 2023.

Striving towards a sustainable future – our sustainability goals

TO BECOME A RESPONSIBLE FMCG LEADER

Sustainable value chains from farm to shelf

1. **100%** Critical Supplier assessments across all geographies **by 2030**
2. **100%** Sustainably sourced critical raw materials **by 2040**

Improved access to healthy, natural and safe food for all

1. Increasing the reach of our product portfolio from **200 Mn** households to **250 Mn** by 2030
2. **100%** Sustainable products by volume **by 2040**

Enhance the quality of life, creating shared value for our communities

Foster an equitable, inclusive and safe working culture

1. **2 Mn** beneficiaries **by 2030**
2. **50%** diverse workforce across all geographies **by 2030**

Clean energy, replenished water, preserved biodiversity, pioneered circular economy

1. **Net Zero** by 2040 across all geographies
2. **Water neutral** across all operations **by 2030**
3. **Zero waste** to landfill **by 2030** across all geographies
4. **100%** of packaging material to be recyclable, compostable or reusable across all geographies **by 2030**

- During the year, we released our ESG strategy along with specific commitments across parameters.
- In the UK, we have switched to Green Electricity procurement completely.
- TCPL won Gold Award in the Climate Change category at the “ICAI International Sustainability Reporting Awards 2021-22”.

Macro environment

Key Commodities' movement

- **North India tea** prices continued to come off sequentially, in line with historical annual trends, as we entered non-plucking season.
- **South India tea** prices for the quarter were 11% higher YoY.
- **Kenyan tea** prices softened sequentially

- **Arabica** prices for the quarter remained stable QoQ on projections for higher Brazil coffee production.
- **Robusta** was higher sequentially but 10% lower YoY.

Market context – category growth rates (value)

US

UK

Canada

India

- US markets saw category growth in Coffee (both Bags and K-cups) and Tea on account of price increases. In volume terms, the category saw a decline.
- UK – The tea category in both regular and F&H saw growth led by pricing.
- Canada – Both regular black tea and specialty tea grew, led by pricing.
- India branded tea category saw muted growth, lower than its long-term average.

Financial Performance

Performance Highlights – Q4FY23

Consolidated Revenue at Rs 3,619 Crs

- India Business +15%
- International Business +6% (constant currency); on a like-to-like basis +1% (excluding acquisitions)
- Non-branded Business +9% (constant currency)

EBITDA at Rs 518 Crs, +13%, and EBITDA margin at 14.3%, in line with last year

- India Business +19%, EBITDA margin higher by 0.6%, mainly due to optimization of other expenses. Gross Margin in line with last year.
- International Business -3%, EBITDA margin lower by -1% mainly due to commodity/input cost inflation and lag in price increases.
- Non-Branded Business -8%, EBITDA margin lower by 2% led by Input cost inflation and adverse impact of fair valuation of inventory partly offset by revenue growth

Financials: Consolidated

Group Consolidated Net Profit for the **quarter** grew **21%** YoY led by:

- Revenue growth in both Branded and Non-branded business
- EBITDA Margin expansion YoY
- Lower exceptional items, lower taxes, and improved performance of Tata Starbucks

Group Consolidated Net Profit for the **year** grew **30%** YoY led by:

- Revenue growth in both Branded and Non-branded business
- Partly offset by margin decline in International business. India business margins were marginally higher.
- Higher exceptional income on account of sale of investment property in Tata Coffee and conversion of Joekels and Bangladesh JVs into subsidiaries, partly offset by higher restructuring and reorganization costs.

Financials: Standalone

Quarter ended Mar'23			Profit and Loss statement (all nos. in ₹ Crores)	Financial year ended Mar'23

Concluding remarks

To conclude – FY23 in a nutshell

Macros

- We have seen some green shoots in some of our salient markets for tea and remain cautiously optimistic going forward.
- The impact of inflation and monetary tightening on the economic growth and demand in our key International markets remains a monitorable.

Business

- In FY23, we delivered double-digit topline growth while balancing margins in an extremely volatile & inflationary environment.
- While the tea business in India was subdued due to demand challenges in some of our key markets, the interventions we put in place have yielded positive results, with volume growth returning this quarter.
- In spite of the steep price increases taken to mitigate input cost inflation, we continued to gain market share in salt, driven by in-market execution. The margin in the business has been improving sequentially and is now almost in its normative range.
- Our growth businesses have been on a strong growth trajectory and have increased their salience significantly over the last couple of years. Ready-to-drink business hit a milestone of Rs 621 cr in net sales this year, up from ~ Rs 180 cr when we acquired it. Tata Soufull grew 100%+ and Tata Sampann grew 29% during the year.
- Our JV Tata Starbucks recorded a 4-digit topline in FY23 and now has 333 stores with the highest-ever store addition during the year.
- In the international business, input cost inflation and adverse currency movements impacted margins, but we mitigated it via pricing actions and have seen a sequential improvement in margins QoQ for 2 quarters now. Additionally, we have made structural changes to unlock further efficiencies going forward.
- Despite significant input cost inflation and increasing salience of the new businesses, we minimized the consolidated EBITDA margin contraction YoY. Going forward we will continue to stay focused on driving profitable growth.
