

## ENERGY CONSERVATION POLICY

January 29,2024

### Policy Statement:

Tata Consumer Products Limited (TCPL) is committed towards energy optimization, conservation and energy efficiency by integrating these into its day-to-day business operations. We look at energy as a currency of improvement of operational costs and improving the environment. We aim to enhance energy efficiency, decrease use of fossil fuel, and increase investments in renewable and clean energy sources and energy-efficient technologies.

Our Strategies are focused on:

- Developing focused Action Plans towards energy savings leading to cost and operational efficiency.
- Continuously improving energy efficiency in terms of normalised consumption per area or per unit of Output or per unit of revenue.

This policy sets a framework for the way we endeavour to manage energy in all our activities to

- Establish, measure, monitor and review objectives and energy targets.
- Comply with applicable laws, regulations and consistently endeavour to exceed other requirements related to energy efficiency, energy use and energy consumption.
- Adopt energy efficient technologies, products and services while protecting human health, safety and environment.
- Promote and proliferate energy efficient operations throughout our supply chain.
- Support with the necessary resources in order to achieve the objectives and energy targets set within this management system framework.
- Innovate and optimize processes of Significant Energy Uses.
- Ensure all planned manufacturing processes, design, procurement and related service activities consider energy performance improvement.
- Create awareness among all the stakeholders on the importance of energy efficiency and conservation and its associated positive impacts.
- Conduct periodic energy audits to identify energy conservation opportunities and continually improve energy performance.

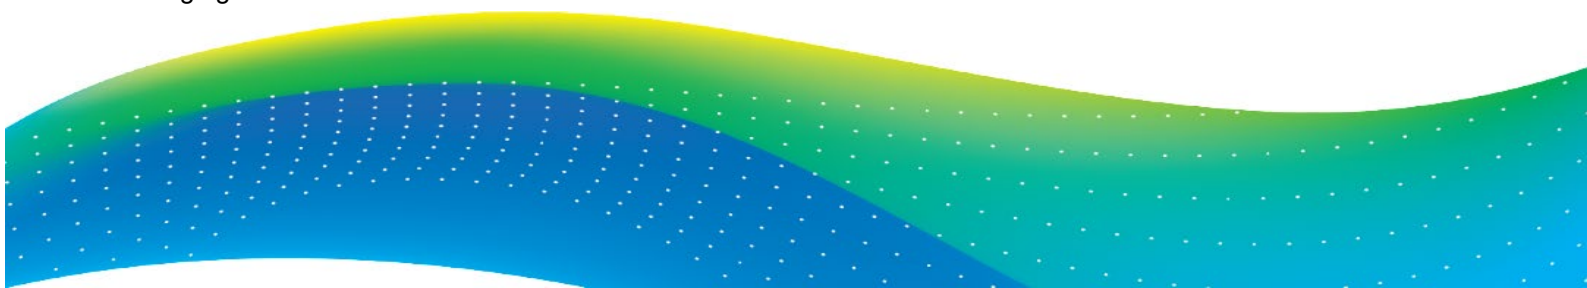

### Scope:

This policy covers all TCPL operations across all geographies where we have direct control of the operations including offices and factories. While joint venture operations are not covered explicitly under this policy, we will ensure that adequate and suitable arrangements are put in place by the local management teams to promote energy conservation.

For and on behalf of Tata Consumer Products Limited
